Jazzminton Sport Net

Frame

Top Bar

Net

Birdie Case

4 Sport Birdies
(four colors)

2 Sport Wind Birdies
(orange)

Green Paddle

Orange Paddle

4 Yellow Balls

Parts below are only needed in windy conditions

2 Anchor Ropes

2 Anchor Hooks

Red Court Rope

4 Court Hooks

Carry Bag

How to Assemble

Set up time about 2-4 minutes

Watch assembly video

funsparks.com/jazzminton-sport-how-to-assemble

1. Remove from Carry Bag: Frame - Top Bar - Net.

2. Unfold the Frame tubes from the Foam Holder.

3. Plug tubes together, they are connected with bungee ropes which make it really simple.

4. Place the Net between the Frame like this, ensuring the word "Jazzminton" matches image.

5. Slide the Net over the two tubes.

6. Remove one 2Way-Connector from the Top Bar.

7. Slide the Top Bar through the top sleeve of the Net.

8. Place the 2Way-Connector back onto the Top Bar.

9. Connect the 2Way-Connector to the Frame.

10. Attach the two bungee cords to the eyelets at the bottom of the Net. This is to stretch out the Net.

Set Up

Minimum space needed 8 x 18 feet - (2.40 x 5.50m) (better is 8 x 23 feet - (2.40 x 7.00m))

Standard Setup

(indoors and outdoors without wind)

Jazzminton Sport is best played using the Sport Birdie. The reason for this is because every hit, no matter how hard, CAN be returned. The Sport Birdie is designed to slow down as it flies, allowing you time to react in order to return it. Since this is the case, there are no boundary lines needed, making for awesome rallies.

However, if it becomes windy outdoors, we have also provided Sport Wind Birdies and Yellow Balls to play with. In this scenario, we suggest you set up the boundary line, because hitting the Sport Wind Birdie or Yellow Balls as hard as you can, is difficult to return. These boundaries limit the distance of your shot, so you don't just blast it away, making for great rallies.

Alternative Setup

(for windy conditions or with ball)

Use the Anchor Rope and the Anchor Hooks to secure down.

Set up boundaries so each player has a court size of 16' x 16' (4.8m x 4.8m).

Use one of these

Gym

26 students can play at the same time.

Basketball court size of 92 x 50 feet (15 x 28m)

Each Jazzminton Court is 8 feet x 23 feet (2.5m x 7m)
(plenty of room around each group)

each number represents one player

Storage

For quick storage,
fold legs into foam holders.

Store in Carry Bag

Learn and Practice Jazzminton

Jazzminton is easy to learn. Below are two steps to help you in your Jazzminton Sport adventure.

FIRST STEP:

Pass the Sport Birdie  back and forth **without the Net** until you can rally it for some time. Do this step until you feel comfortable and then move to the second step.

SECOND STEP:

Pass the Sport Birdie  back and forth **through the Window**  until you can rally it for some time.

Once you are comfortable with this step, you can graduate to competitive games with score keeping.

Watch our training videos:

Rules

Objective: To win points by hitting a Birdie/Ball through the Jazzminton Window until opponent cannot return it.

Determine Who Starts

Players rally, hitting the Birdie/Ball through the Jazzminton Window, the winner of the rally gets the first serve.

Serving

Serving player is a minimum of 6 feet from the Jazzminton Net and must underhand serve the Birdie/Ball. When serving, if the Birdie/Ball touches the net and goes through the Window, it does not count and you must redo the serve.

Receiving player may stand at any desired distance.

Underhand

Serve Alternating

If the game is to 11, each player alternates 2 serves at a time.

If the game is to 21, each player alternates 5 serves at a time.

If the score is 10-10 (played to 11 points) or 20-20 (played to 21 points), both players alternate one serve each until the game is won.

During Play

Using only your paddle you get one hit to return the Birdie/Ball through the window.

To equalize sun and wind effects, switch sides every 5 points, if desired.

Scoring

Jazzminton is played using rally scoring. Points can be won when serving or receiving. The rally ends and a point is awarded when the opponent cannot return the Birdie/Ball through the Jazzminton Window.

Games are typically played to 11 or 21.

Games must be won by two points.
